

Spectroradiometer

(CIE color, luminance, and brightness)

Specification	
Feature	NIST traceable. Meets applications of various light sources.
Applied Field	Radiation and colorimetric characteristics of LED, light, fiber input.
Measuring Items	Luminance, brightness and CIE color diagram.
Wavelength	380-780nm
Resolution	5nm
Luminous Flux	1 lm...4000 lm
Precision	+0.002 x, y (@2.856k)
Representation	+0.005 x, y
CCT Representation	+20k (@2.856k)
Wavelength Precision	+0.5nm
